Results-driven 5th-year Software Engineering student at Epitech with Web, Mobile, Data Science, AI and Automation experience. A fast learner and passionate team player with a big picture mindset, keen to build innovative solutions. Bilingual (English, French) with excellent communication and interpersonal skills. Explore my interactive portfolio and live project demos at despres.net.

Experience

Teiimo <i>AI & Data Science Engineer</i>	Remote Sep 2025–Ongoing
○ Architected and deployed an end-to-end AI pipeline, automating data ingestion, preprocessing, and feature engineering	
○ Developed and trained the company's first machine learning models to detect anomalies in heart data	
○ Built deep visualisation tooling to gain insight from complex biometric datasets	
ETH Investors Club <i>Web and Onchain Developer</i>	Remote Sep 2024–Apr 2025
○ Deployed and maintained an onchain article minting system generating \$150k+ revenue	
○ Developed and updated the ethinvestorsclub.com website	
EssilorLuxottica <i>Robotic Process Automation Software Developer</i>	Créteil, FR Feb 2024–Aug 2024
○ Led a portfolio of automation projects aimed at optimizing processes and workflows	
○ Built a system allowing brand operators to automate the application of discounts with trade partners	
○ Developed internal tools enabling teams to surface automation opportunities and quantify their impact	

Education

Epitech <i>Master's in Software Engineering - International Track</i>	Berlin, DE / Montreal, CA / Paris, FR 2020–2026
○ Delivered 50+ diverse projects alone or in groups of up to 6	
○ Organised and led AI and Web3 development workshops for 30 students	
○ Mastered advanced software engineering, full-stack development, and production system architecture	
McGill University <i>Certificate in Management</i>	Montreal, CA 2024–2025
○ GPA: 3.5 – focus on finance, mathematics, project management and strategic management	
○ Developed practical business skills through real-world case studies, data-driven analysis, and team-based projects	

Projects

Bedrock - bedrock.despres.net <i>Cross-platform Markdown editor</i>
○ Built an electron-based Markdown editor with a focus on UX and performance
○ Implemented full release CI/CD pipeline including apple notarization and auto-updater

Fundamental

<i>The easiest wallet in the world!</i>
○ Founded and led a team of 5 to develop a user-friendly, mobile-first financial platform
○ Designed the app and wallet architectures, perfected UI/UX and deployed a custom ENS registry

Skills

Languages: C, C++, TypeScript, JavaScript, Solidity, Python, Lua
Technologies: React, React Native, Next.js, Tailwind, Three.js, Node.js, UIPath, Power Automate
Data & AI: SQL, Pandas, NumPy, Ollama, OpenAI API, Gemini API
Cloud & DevOps: Azure, AWS, Railway, Git, GitHub Actions, Jenkins, CI/CD, Docker
Blockchain: Foundry, Hardhat, Viem, Ethers.js, OpenZeppelin
Soft Skills: Project Management, Teamwork, Leadership, Adaptability, Client Relations
